

Mailbox & Document Migration

Increase profit margins and offer a better experience to your customers by adding OneDrive to every Office 365 project.

So many managed service providers help businesses migrate email to the cloud—and documents shouldn't be an afterthought. Combining BitTitan Mailbox Migration™ with Document Migration™ lets you increase profit margins while taking advantage of the efficiency of using MigrationWiz® for it all. You can differentiate your services and increase profits on every migration.

Better Together: The Mailbox & Document Migration Bundle

Mailbox Migration

DON'T FORCE YOUR CUSTOMER TO PUT BUSINESS ON HOLD FOR THEIR MIGRATION TO THE CLOUD

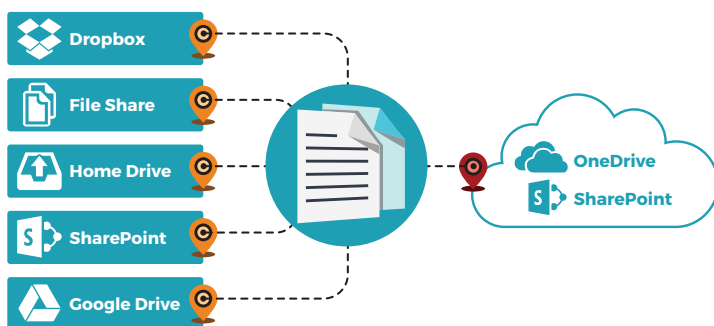

Mailbox Migration via MigrationWiz moves mailbox data quickly and seamlessly, with zero user downtime. Mailbox Migration scales to handle projects of any size and empowers you to initiate your migrations from anywhere—without taking your email systems offline.

Document Migration

DIFFERENTIATE YOUR BUSINESS FROM OTHERS WHO ARE ONLY DOING EMAIL MIGRATIONS

Document Migration makes it easy to move between document servers—on-premises or in the cloud. For document migrations, you can keep existing file hierarchies and permissions intact, and you have the freedom to choose which documents to move to the cloud first.

Expand beyond email to drive greater revenues, achieve higher profits and access more Microsoft incentives. It's easy using the MigrationWiz you already know and love.

Document Migration

- Choose from multi-pass and delayed migration
- Run hundreds of migrations with one click using a large distributed system
- Migrate source file system hierarchy to the destination
- Convert to a format known by the destination system
- Migrate permissions including users, groups, links and domain permissions
